

Dear reader,

You have just received the last newsletter of the SECuRe project (Smart Education for Corporate Sustainability Reporting) that deals with the topic of ESG (Environment, Social and Governance), the importance of which has increased significantly in recent years.

The general idea of the SECuRe project is the creation of an educational program that will enable professional staff in private and/or public sector and teachers, to undergo the topics of environmental, social and governance reporting.

Best wishes,

SECURE project team

Wellcome to the Experimental Online Course!

We would like to invite you to join the online course of the SECuRe project, which focuses on education in the currently very topical issue of ESG and sustainable reporting.

During the course, you will gain both broad knowledge of ESG and sustainability topics, but you will also learn a lot of practical information about sustainable reporting, which has become mandatory for many companies. Whether you are an ESG manager who will be preparing reporting materials for your company, or sustainable reporting affects you in connection with other areas that you are responsible for, this course offers you a comprehensive insight into this topic.

The course is designed as an online study platform that enables individual study. Users can choose the layout of the study according to their time availability and study when it is convenient for them and in a way that is effective for them.

Structure of the SECuRe course

The course is divided into six thematic modules, which cover the development of the entire ESG field, the legislative framework, the individual areas hidden under the acronym ESG (environmental, social and governance), and finally a chapter on ESG reporting.

Learning Unit 1: European Legislation & Sustainability Standards

Learning Unit 2: Sustainability Management

Learning Unit 3: Environmental dimension

Learning Unit 4: Social Dimension

Learning Unit 5: Corporate governance dimension

Learning Unit 6: Sustainability reporting

SECuRe online platform

The course is offered as a free educational online resource available in English, Czech, Polish, Romanian, Slovenian and Spanish. Learning materials are available in a variety of formats so that the users can choose the way of study that suits them best. Each chapter contains an interactive exercise where you can playfully test your acquired knowledge.

You will be introduced to the structure and functionality of the course in the introductory videos, where you will learn details about the course.

A library of other relevant study materials is also prepared for the course users in the form of the "Knowledge repository", which is also available on the SECuRe project platform. This library contains

various other relevant materials in the form of pdf files, links to educational videos and legislation.

After the successful passing the final test, user obtain the **certificate of the SECuRe manager**.

Register for the course now!

If you are interested in ESG, need to deepen your knowledge and have an overview of reporting obligations, do not hesitate to sign up for our course!
